FUND DESCRIPTION

This sustainable investment fund aims to invest in the transition to a low-carbon economy without compromising on potential returns. It invests in global equities, targeting eco-visionary companies whose products and services are designed to capture opportunities related to decarbonization. By combining artificial intelligence with human expertise, the fund aims to generate alpha while promoting a positive environmental impact.

GROWTH OF A \$10,000 INVESTMENT

ANNUAL RETURNS^{1,2,3}(%)

CUMULATIVE RETURNS^{2, 5}(%)

¹ Returns are presented in \$CAD, net of fees.

² Since July 1st, 2024, net of fees.

³ Returns since October 1, 2025, represent the performance of the Mageska EcoVision Fund. Prior returns were calculated based on the actual performance of a similar investment strategy implemented in a separate portfolio before the Fund's inception.

⁴ Since Fund inception

⁵ 2-year, 3-year and 5-year returns are annualized.
